Software Developer

We are seeking to hire a Software Developer to create and maintain software applications working in an Agile/Scrum environment. Required skills include C#.NET, Angular, ASP.NET Core MVC, SQL Server. Experience with Git and Azure DevOps pipelines is a plus. Must have strong analytical skills and problem-solving abilities. Must be self-disciplined and self-motivated. Must be able to work collaboratively in a team environment as well as independently when appropriate and be accountable to your teammates. Our development team members work remotely from their home offices.
